

C2B2 Colorado Center for Biorefining and Biofuels

The Colorado Center for Biorefining & Biofuels (C2B2) is a collaboration involving over 200 principal investigators at four partner institutions. C2B2's advanced integration offers unsurpassed research and education opportunities for students, researchers and industry partners.

Join C2B2 in the Rocky Mountains this summer for the third annual C2B2-REU **RESEARCH EXPERIENCE FOR UNDERGRADUATES** *Research fundamental scientific challenges of the renewable bioenergy industry*

Work with a principal investigator at one of four C2B2 sites:
University of Colorado at Boulder, Colorado State University,
Colorado School of Mines, National Renewable Energy Laboratory

Financial Provisions

- \$4,000 Stipend
- \$500 Travel Allowance
- \$1,800 Housing/Food Allowance

Program Highlights

- Weekly biofuel/biorefining seminar
- Poster session
- Graduate & postdoctoral research mentors
- Social & recreational activities

June 2 - August 6, 2010*

Conduct biofuel, biochemical, and biorefining-related research in the areas of:

- Feedstock Engineering, Plant Biotechnology & Crop Science
- Biochemical & Thermochemical Conversion
- Process & Product Engineering
- Lifecycle Assessment & Economic Viability

*Alternate dates may be scheduled for undergraduates on quarterly academic schedules

Apply Now! Deadline 2/22/10

Applicants from *all academic fields* are eligible to apply. For application instructions and online submission visit:

www.C2B2web.org
