Investment Banking Workshop – Boston

Duration: 2 days

Cost: Free (RSVP cost is refunded upon attendance, please see event page for details)

RSVP: please visit <http://libboston.eventbrite.com> or www.LeadersInIB.com to RSVP

Location: Harvard Science Center – Room to be announced closer to the event date

Details: this 2-day event is designed to help students break into the field of investment banking. The workshop will teach students how to build a resume for investment banking and will train them for the technical and behavioral portions of investment banking interviews. The workshop not only teaches all the required material to ace investment banking interviews, but also teaches students the art of communicating their answers confidently and with conviction. We also cover numerous other topics including networking, cold calling and emailing, cover letters, personal marketing, info sessions, and many other general techniques to give candidates an edge during recruiting season. Select few students will be invited to the Leaders Candidate Program, allowing them to become a part of the global network of graduates from the Leaders initiative. The program helps candidates with mentoring, networking, and career opportunities.

About: Leaders in Investment Banking is a volunteer initiative that has helped students with interviews and offers at leading finance institutions around the world. We believe in helping candidates in unleashing their potential and finally becoming leaders in this highly competitive industry.

Instructor: Sherjan Husainie completed his undergrad at the University of Toronto in Aerospace Engineering and went on to pursue a Masters in Financial Engineering at UCLA Anderson School of Management in Los Angeles. He currently works at Morgan Stanley Technology Investment Banking and has previously worked at Houlihan Lokey and RBC.
