

2014 Asia Pacific Summer Intern Position

Equity Research

ABOUT BARCLAYS

Barclays is on a journey. One that will give you many opportunities to make a positive impact across our business.

We have a 300-year-strong foundation on which to build. Our status as one of the world's major financial services providers gives us weight and momentum. Our expertise across personal banking, credit cards, corporate and investment banking, and wealth and investment management offers true variety. And in over 50 countries around the world, our 140,000 people are coming together to set examples of accountability, collaboration, good citizenship and, above all, pride in the work we do. All guided by a strong set of values: respect, integrity, service, excellence and stewardship.

This future is yours. And it all starts today.

WHAT IS EQUITY RESEARCH?

In today's financial markets clients are looking for ideas that set them apart from the competition, that's where research comes in. Creative and incisive analysis of financial markets is what empowers our business and drives market strategies for our clients and traders. Equity Research provides the financial and strategic advice necessary for successful asset management. The group is dedicated to providing insightful analysis of global stock markets and companies.

THE SUMMER INTERNSHIP PROGRAM

The Barclays Summer Internship Program is designed to provide our summer interns with broad exposure to the businesses. This 10-week intensive program consists of real and practical work assignments that allow you to participate and contribute to real meetings and research projects. We also emphasize on balancing work through a variety of corporate events and social community events that enable you to build a vital network of colleagues and friends. The goal of the summer program is to

provide a solid base and experience in Equity Research, and an opportunity to confirm your career aspirations.

WHAT WILL MY ROLE BE AS AN EQUITY RESEARCH SUMMER INTERN?

Interns will have the opportunity to analyze industry macro trends and company financials under the direction of the senior analyst. You will maintain financial models and industry databases insuring correct and up-to-date information for research reports that are distributed to sales force and internal clients and will develop new models as needed. You will also review business and trade publications, annual reports, financial filings and other sources in order to gather, synthesize and interpret data on companies followed by the senior analyst.

Currently Available Locations: Hong Kong, Korea and Taiwan
