Summer 2007 Fellowships in Genome Sciences & Policy

Engage in revolutionary research at Duke University through the 10-week Summer Fellowship Program within the interdisciplinary Institute for Genome Sciences & Policy. Explore major questions in genome sciences and policy through mentored research projects, lectures, discussions and a summer genome retreat.

Areas of research include: computational, evolutionary, medical, population, structural and/or functional genomics. In addition, all participants will be exposed to topics in genome ethics and policy including intellectual property, race and society, and law and policy development.

The Summer Fellowship Program is sponsored in large part by the National Science Foundation and is open to Duke students in the summer following their freshman or sophomore years as well as non-Duke students who are US citizens. Summer housing and a stipend are provided.

May 29th – August 3rd 2007

Deadline for Application is Thursday, March 1, 2007.
