

# ANNOUNCING A NEW MICROBIOLOGY GRADUATE PROGRAM

**<http://MICROBIOLOGY.mit.edu>**

The Graduate Program in Microbiology is a new interdepartmental and interdisciplinary initiative at MIT. It is designed to provide students with broad exposure to modern areas of microbiology and depth in the chosen area of thesis work. Research areas include: biochemistry, genetics, structural biology, genomics, systems biology, computational biology, chemical and biological engineering, biotechnology, synthetic biology, cell and molecular biology, ecology, evolutionary biology, immunology, virology, pathogenesis, and environmental microbiology.

The first class of students will arrive in the Fall 2008 and will join an already vibrant, thriving microbiology community at MIT. There are over 50 faculty members from several different science and engineering departments and divisions participating in the program. Graduate students will be supported with a stipend, tuition, and health insurance.

## Participating Faculty

Alm, Eric	Drennan, Cathy	Kim, Dennis	Polz, Martin	Stocker, Roman
Amon, Angelika	Endy, Drew	King, Jonathan	Prather, Kristala Jones	Stubbe, Joanne
Baker, Tania	Engelward, Bevin	Knight, Tom	RajBhandary, Tom	Summons, Roger
Belcher, Angela	Essigmann, John	Laub, Michael	Regev, Aviv	Suresh, Subra
Bell, Steve	Fink, Gerry	Licht, Stuart	Saeij, Jeroen	Thompson, Janelle
Bosak, Tanja	Fox, Jim	Lindquist, Susan	Samson, Leona	Tidor, Bruce
Chen, Jianzhu	Fraenkel, Ernest	Maheshri, Narendra	Sasisekharan, Ram	van Oudenaarden, Alexander
Chisholm, Penny	Gehrke, Lee	Manalis, Scott	Sauer, Bob	Walker, Graham
Cooney, Charles	Grossman, Alan	Mirny, Leonid	Schauer, David	Wang, Daniel
Dedon, Peter	Imperiali, Barbara	Newman, Dianne	Sinskey, Tony	
DeLong, Ed	Kaiser, Chris	Ploegh, Hidde	Stephanopolous, Greg	

Apply to the Microbiology Graduate Program online or download a PDF from our web site to submit a paper application.

**Application Deadline: December 15, 2007**
