

TITLE: RESEARCH ASSOCIATE

Claros Diagnostics LLC is a division of OPKO Health, Inc., a publicly traded healthcare company involved in the discovery, development, and commercialization of proprietary pharmaceutical products, medical devices, vaccines, and diagnostic technologies. Claros Diagnostics is based in Woburn, Massachusetts, where we are developing assays for a Point-of-Care diagnostic test system for use in physician offices in the United States and for applications worldwide.

Claros is looking for a Research Associate with experience with clinical bioassays (more specifically with immunoassays) and a willingness to learn new formats and technologies. You will assist in the development of Point-of-Care immunoassays in microfluidic format on our proprietary diagnostic platform. We are looking for a detail-oriented individual who will perform experiments in novel devices with micrometer-sized features. Experience in a FDA regulated environment is an asset.

The position offers the exciting opportunity to contribute to the entire development cycle of new diagnostic tests employing multiple formats and grow along with the company as we expand activities in clinical trials, regulatory approval, and market launch.

DUTIES AND RESPONSIBILITIES:

- Design, perform, and document experiments in the context of reagent development, immunoassay product optimization and analytical/clinical studies
- Troubleshoot assays, consult literature and actively propose/pursue solutions
- Assist in the design and development of test systems, contribute to regulatory activities
- Accomplish goals under tight timelines
- Work closely with project leader to improve test protocols

EDUCATIONAL REQUIREMENTS/EXPERIENCE

- Industry experience; familiarity with clinical diagnostics is a plus.
- BS/MS in biology, biochemistry, bioengineering, chemistry, or other science.

We offer competitive compensation and an excellent benefit package.

Ability to work in the US without sponsorship is required. Email your cv and salary history to recruitment@opko.com.
