

RESEARCH IN GERMANY

FUNDED international internships in science
after graduation

Come learn about a unique opportunity to conduct post-graduate research at Heidelberg University in Germany. University representatives will be on site to present the program and answer questions.

Attend our information session:
Friday, Feb 22 | 4:00PM | E40 - 4th floor

Potential Research Topics include:

Cell Biology
Developmental Biology
Neurology
Metabolomics
Virology & Infectious Diseases
High Resolution Microscopy
Systems Biology

Mathematical Modeling, Simulation &
Optimization
Computer Science
Image Processing
Bioinformatics
Theoretical Chemistry
Physics & computational modeling
