

PH.D. PROGRAM IN Biological Sciences in Public Health

The Ph.D. program in Biological Sciences in Public Health is an umbrella program that trains students in biological research with a focus on prevention and better treatment of diseases affecting large populations.

Students obtain broad interdisciplinary knowledge of both mechanistic and quantitative approaches to biomedical research in the following departments:

- GENETICS AND COMPLEX DISEASES
- IMMUNOLOGY AND INFECTIOUS DISEASES
- MOLECULAR AND INTEGRATIVE PHYSIOLOGICAL SCIENCES
- NUTRITION

All students are guaranteed 100% tuition, health insurance and stipend support.

www.bph.harvard.edu

Research projects focus on
widespread human diseases:

AIDS • MALARIA
TUBERCULOSIS • INFLAMMATION
CANCER • AGING
DIABETES • OBESITY
CARDIOVASCULAR DISEASE
ASTHMA
