

## Operations Rotational Development Program (ORDP) Virtual Information Session

*Join us in learning about biotechnology, Genentech and job opportunities in Roche/Genentech's Pharma Technical Operations (PT).*

*The Operations Rotational Development Program (ORDP) will be presenting full-time and summer internship opportunities.*

*A highly recognized two year program, ORDP attracts diverse students interested in gaining a broad understanding of PT functions that are critical to the manufacturing of Genentech products. Position assignments lie within Global Engineering, Product Development, Regulatory, Operational Excellence/Strategy, Biologics Manufacturing/Support, Supply Chain, and Global Pharma Procurement.*

*Preferred Qualifications:*

- *Course 2, 5, 7, 10, 20 (BS or MS)*
- *Demonstrated leadership and people skills*
- *Passion and motivation to contribute to PT operations business functions*
- *Evidence of ability or potential to make a difference*
