

March 10th, 2014

Ms. Janice Chang
Department of Biology
Massachusetts Institute of Technology
Cambridge, MA 02138

Dear Ms. Chang,

I write to request your assistance with the recruitment of a full-time research assistant in my laboratory at the Stanford Cardiovascular Institute and the Division of Cardiovascular Medicine/Department of Medicine at Stanford University School of Medicine. Information regarding this open position is described below -

A full-time research assistant is needed to develop state-of-the-art research projects related to the stem cell biology of the cardiovascular system. Basic molecular biology skills (e.g. PCR, gel electrophoresis, DNA purification, etc.) and experience working with embryonic stem cells are preferred but not required. Job duties include breeding of transgenic and knock-out mice, deriving new mouse embryonic stem cell lines, DNA purification, PCR genotyping, tissue culture, and basic histology. Some administrative duties will be required. Applicant must have excellent communication and organizational skills and great attention to detail. Successful candidate will have a Bachelor's degree by 7/01/14. We offer competitive salary. For more information please visit our website at <http://seanwulab.stanford.edu>. To apply, please submit your resume with a cover letter to Dr. Sean M Wu at smwu@stanford.edu.

I would greatly appreciate it if you can forward this announcement to all interested/qualified individuals for this position. Thanks you very much for your help.

Best regards,

Sean M. Wu, MD, PhD
Endowed Facular Scholar of Lucile Packard Foundation
for Children, Child Health Research Institute at Stanford
Assistant Professor of Medicine and (by courtesy) Pediatrics
Stanford Cardiovascular Institute
Institute of Stem Cell Biology Regenerative Medicine
Stanford University School of Medicine
