

August, 2014

Dear Postgraduate, Graduate, or Undergraduate,

As a student at a renowned American university, you have undoubtedly already given consideration to the next step in your career. Would you like to work on inspiring topics as part of an interdisciplinary team, and rapidly take on a wide range of responsibilities? If so, we look forward to meeting you.

McKinsey & Company is the world's leading top-management consulting firm. Our clients include more than 60 percent of the Global 500, as well as many other renowned companies. We also serve government agencies, as well as both public-sector and private organizations. Our value proposition – building global leaders – sums up what McKinsey has stood for since it was founded more than 80 years ago. The professional development of our consultants is one of our key goals. With more than 100 offices in over 50 countries, we – together with our clients – truly help to shape the world's future.

Incidentally, only around half of McKinsey consultants hold a business degree, be it a degree in economics or an MBA. Other consultants have degrees in science, engineering, informatics, medicine, law, or the humanities. The one thing they all have in common, however, is that they have outstanding analytical skills and enjoy taking on new challenges.

Interested? We would be delighted to meet you! Please come see us at one of the following events:

Wednesday, Sep 10, 2014

- 12:00 pm - 1:00 pm: Lunch session (MIT, Room 1-277, Pierce Laboratory, 33 Massachusetts Avenue, Cambridge, MA, 02139)

German Office colleagues Lea Bolz and Florian Nägele look forward to providing you with insights into McKinsey's work and the various career paths the firm offers – including the extensive professional development program. Perhaps most important of all, you will have the opportunity to talk to Lea and Florian in order to get an impression of the kind of people you would be working with.

You can assist us in planning by registering on our Web site, www.meet.mckinsey.de. Please be aware that the events are targeted at German-language speakers (native-speaker level) and that this is the working language in Germany. On the Web site, you will also find details for the event, as well as a time table for McKinsey's visits to other universities in the United States.

If you are unable to attend the informational session, or if you have other questions, please contact our colleagues Lea Bolz (lea_bolz@mckinsey.com) or Florian Nägele (florian_naegele@mckinsey.com).

Please feel free to forward this e-mail to any of your fellow students who might be interested in a career at McKinsey in Germany. We very much look forward to hearing from you.

Best regards,

A handwritten signature in black ink, appearing to read 'Philipp Koch', with a stylized, cursive script.

Philipp Koch

Partner

P.S. In the interest of data security, McKinsey is sending out invitations anonymously. Please excuse any multiple invitations you might receive.
