

Genentech Rotational Development Programs Virtual Information Session: ORDP & PDRP

Join us in learning about biotechnology, Genentech and job opportunities in Roche/Genentech's Pharma Technical Operations (PT).

The Operations Rotational Development Program (ORDP) and Process Development Rotational Program (PDRP) will be presenting full-time opportunities.

ORDP: Recruiting diverse students interested in gaining a broad understanding of PT functions that are critical to the manufacturing of Genentech products. Position assignments lie within Global Engineering, Product Development, Regulatory, Operational Excellence/Strategy, Biologics Manufacturing/Support, Supply Chain, and Global Pharma Procurement.

PDRP: Recruiting students passionate about science & engineering and thoroughly enjoy the challenges associated with complex problem-solving. Position assignments lie within the US Biologics Technical Development organization: Cell Culture Development, Purification Development, Analytical Development, Pharmaceutical Development, Device Development, Pilot Plant Operations, and Process Development Engineering.

Preferred Qualifications:

- Course 2, 5, 7, 10, 20 (BS or MS)
- Relevant internships, research or work experience
- Strong communication and collaboration skills
