

ALDEN

Solving flow problems since 1894

MASSACHUSETTS | COLORADO | WASHINGTON | OREGON

BRING YOUR RESUME!

Career Fair

Date: Wednesday, December 3rd

Time: 4:30pm-9:00pm

Location: Alden Research Lab

30 Shrewsbury Street, Holden MA

**Alden is Always looking for
Talented Engineers and Scientists**

Graduate Students, Undergraduates, and Recent Alumni

Are you an engineer or biologist with a passion for the environment? Are you seeking a work environment where personal initiative is rewarded, yet you can rely on a team of motivated professionals, all directed at helping one another achieve a common goal?

Alden is a private consulting company and laboratory with a unique history and industry leading reputation going back to 1894. Our employees get their hands dirty solving flow problems that make a difference, helping to clean the World's environment and power its infrastructure, through fish protection studies, physical modeling experiments, field measurement, and the use of Computational Fluid Dynamics (CFD) tools.
