

Clarion Healthcare, LLC

Consulting opportunity for:

- Graduates with BS, Masters, or PhD degrees

Key Dates:

- **Information Session: Thursday, September 17th at 7:00 pm, Stata Center, Room 32-155**
- **Application Deadline (via CareerBridge): Wednesday, September 30th at 11:59 pm**
- **On-campus Interviews: Wednesday, October 7th**

Are you looking for a career that allows you to apply the critical thinking and problem solving skills that you've been developing at MIT? That challenges you to examine and address complex business issues facing executives in the pharmaceutical & biotech industry? Would you like to be part of a team of intellectually curious high-achievers – recent graduates like yourself and seasoned business professionals?

We encourage you to join the **Clarion Healthcare** team at an **Information Session** in **Stata Room 32-155** on **Thursday, September 17th at 7:00 pm**. Clarion Associates, Consultants, and Managers, including MIT alumni, will share their perspectives on the work and culture of Clarion Healthcare, a strategic consultancy to life sciences companies located in downtown Boston. **Refreshments will be provided**, and there will be ample time to interact with a variety of Clarion team members.

Please note, if you would like to be considered for a fall 2015 on-campus interview with Clarion Healthcare, full time **“Associate Consultant” applications are due to MIT CareerBridge by 11:59pm on Wednesday, September 30th**. (Job ID: 30517)

MIT alumni have always been integral to the success of Clarion. [Below, MIT Alumni at Clarion share a bit about their experiences with the firm.](#)

We hope that you will join us Thursday the 17th to learn more about Clarion Healthcare. We are eager to share the opportunities for impact and innovation that exist for you at Clarion.

Please feel free to reach out with any recruitment related questions:
Mark Brigham, PhD (BS '06, MEng '07) mbrigham@clarionhealthcare.com

Thank you,

The Clarion Healthcare Recruiting Team

Fall 2015 applications must be submitted to CareerBridge by 11:59pm, Wednesday, September 30th

About Clarion Healthcare

Located in the heart of downtown Boston, Clarion Healthcare, LLC consults to clients in the life sciences industry. Our clients include market leaders, emerging companies, and other stakeholders in the

pharmaceutical, biotechnology and medical device/diagnostics arenas. We take a highly collaborative approach to our work and engage with all levels of the client organization. Senior executive clients consistently recognize our ability to frame critical issues, conduct rigorous analysis, and develop fact-based recommendations that provide lasting value.

Founded in 2003, Clarion currently has about 45 employees. Learn more about us by visiting our website: www.clarionhealthcare.com

From Manager, Brenda Goguen (MIT PhD, Organic Chemistry – 2011):

"I joined Clarion after completing my graduate work at MIT because I wanted to explore the business side of the pharmaceutical industry, while still staying involved in the science that drives it. Clarion provides the ideal environment to do this. I've found that the projects are diverse and impactful, and the culture is academic and collaborative. Most importantly, I appreciate the many opportunities to learn from the partners and managers and to work with such an engaging group of colleagues. In the 2 years I've been at Clarion, I have been involved in a variety of projects, including launch preparation, life cycle management, commercial model innovation, and evaluation of BD opportunities. As a growing firm, Clarion also provides numerous opportunities to take part in and lead internal initiatives and committees. I truly value the experiences I have had at Clarion and would be happy to answer any questions." **Contact:** bgoguen@clarionhealthcare.com

From Consultant, Mark Brigham (MIT BS '06, MEng '07 – EECS; Harvard PhD, Bioengineering – 2014):

"After studying computer science as an MIT undergraduate, I made a turn towards the life sciences as I sought out interesting engineering problems in biomedicine. As I neared the end of my PhD in Bioengineering, I was determined to find a career that could provide me with diverse opportunities to make an impact in the biotech industry. From my first day here at Clarion, I've been certain that I have found exactly such a place. At any given time, our clients span a wide range of life science companies, from preclinical biotech startups to blue chip pharma leaders. I have been able to apply the scientific perspectives I developed as a researcher to help clients understand topics ranging from the needs of patients and practitioners to the landscape of exciting new biotechnology platforms. At the same time, I have had the opportunity to learn how the challenges and questions of our clients evolve as their products move out of development and into the clinic and marketplace. Further, in my day-to-day life here at Clarion, I have been extremely impressed by the lack of personal egos as well as the genuine desire to work collectively towards the success of our clients and our firm. I would be happy to share my experiences further or answer any questions, so please reach out!" **Contact:** mbrigham@clarionhealthcare.com
