

Healthcare Lab (H-Lab) | 5.777

Curious about US healthcare system challenges?

Then join us! H-lab is a 15 unit hands on course that solves complex problems with host organizations in the areas of operations management, analytics, IT, delivery innovation, strategic marketing and organizational dynamics while emphasizing healthcare delivery. It provides students with the opportunity to interact with speakers and senior executives from the healthcare industry as well as their company hosts for a team based project which runs through IAP in January.

A cornerstone of the Healthcare Certificate, this class is geared toward students looking for a career in healthcare and is a great resume builder for business students and entrepreneurs alike!

What are you waiting for? Bid today!

Class meets Mon/Wed 10-11:30
in E62-250
