

STS.009 EVOLUTION & SOCIETY

Fall 2016

Mon/Wed 1-2pm + Rec

HASS-H/CI-H

Are you intrigued by the impact of evolutionary ideas in molecular biology? Fascinated by the latest claims about the evolution of human sociality? Troubled by the continuing creation controversies in the public schools? Explore how evolution has shaped our view of society, and how society has shaped our view of evolution, as this course digs into two centuries of inquiry into our origins.

Professor John Durant
Professor Robin Wolfe Scheffler
