

BACTERIA FIGHT BACK! – ANTIBIOTIC DEVELOPMENT AND THE EMERGENCE OF DRUG-RESISTANT BACTERIA

7.346 Spring 2017

Advanced undergraduate seminar

- ❖ Discover the many ways that bacteria evade our efforts to kill them.
- ❖ Delve into the primary scientific literature, learning how researchers approach these questions.
- ❖ Explore new approaches to combat multidrug resistant bacteria (superbugs).

Contact: Michele LeRoux (leroux_m@mit.edu)

Tentative time: Wednesday 3 pm - 5 pm

(email me if you are interested but this time does not work for you)

Tentative location: 68-121

Light refreshments will be provided!
