

IAP 2018

# Practical Computer Science for Computational Scientists

*Ravikishore Kommajosyula*, Research Assistant, Baglietto CFD  
*Corbin Foucart*, Research Assistant, MSEAS

**Practical computer science enables computational research.**

Topics:

- ★ Computation to boost research efficiency and effectiveness
- ★ Practical considerations in writing scientific code
- ★ Debugging, collaborating, and sharing code
- ★ Leveraging modern processors with parallel computing

No pre-reqs. Open to all students.

**Jan 16 - 25,**  
**Tuesdays and Thursdays,**  
**1-3pm in 3-370**
