UNDERGRADUATE SUMMER RESEARCH PROGRAMME

29 JUNE - 5 SEPTEMBER 2020

Our ten-week programme provides bright and ambitious undergraduates with an immersive hands-on research experience in one of our world-leading research groups.

Over the summer, you'll have the opportunity to attend bespoke lecture series' and career workshops to support you in making your next steps after University. All students will be provided with **accommodation** together in a Cambridge College and a stipend of **£1440**.

As a multidisciplinary institute, we have projects suitable for a range of studies including:

- Biology
- Biochemistry
- Chemistry
- Computer Science
- Engineering
- Mathematics
- Medicine
- Physics

Applications open
November 2019
Deadline
6 January 2020
