

Summer Internship Opportunity at Genentech

Who We Are

At the Roche Group, about 80,000 people across 150 countries are pushing back the frontiers of healthcare. Working together, we've become one of the world's leading research-focused healthcare groups. A member of the Roche Group, Genentech has been at the forefront of the biotechnology industry for more than 30 years, using human genetic information to develop novel medicines for serious and life-threatening diseases. The headquarters for Roche pharmaceutical operations in the United States, Genentech has multiple therapies on the market for cancer and other serious illnesses. Please take this opportunity to learn about Genentech, where we believe that our employees are our most important asset and are dedicated to remaining a great place to work.

Discovery Oncology department at Genentech:

Our mission is to use cutting edge technologies to conduct focused and comprehensive research. We validate prospective targets and identify novel therapeutics in oncology.

The position

Intern responsibilities will include:

1. Mammalian cell culture and genetic manipulation
2. Chromatin biology assays to validate drug targets
3. Evaluation of the role of developmental transcription factors in tumor biology

Who You Are

1. Undergraduate or graduate student with laboratory experience.
2. Have cell culture experience.
3. Have an interest in oncology drug discovery.

Genentech is an equal opportunity employer & prohibits unlawful discrimination based on race, color, religion, gender, sexual orientation, gender identity/expression, national origin/ancestry, age, disability, marital & veteran status. For more information about equal employment opportunity protections, view the **EEO is the Law** poster.

If you have a disability and need an accommodation in connection with the on-line application process, please email us at US.Accommodation@roche.com.

This is a paid intern position for 12 weeks, beginning June 2020 (start date is flexible).

Interested applicants should send their resume to Karen Gascoigne at: gascoigk@gene.com
