

2021 OUTSTANDING STUDENT AWARD

The Outstanding Student Award (OSA) was founded in Pharmaceutical Technical Development (PTD) to recognize students who excelled in disciplines related to the field of biotechnology at selected schools.

One student from MIT, based on their passion for biotech and high scholastic achievement will be awarded a \$2,500 scholarship* and a guaranteed 3-month summer internship starting in May/June 2021 at our South San Francisco headquarters**.

The internship will be in one of the following areas within our PTD organization:

Analytical Operations	Cell Culture and Fermentation Development	Device Development
Digital Sciences	Pharmaceutical Development	Pharmaceutical Processing & Technology Development
Pilot Plant Operations	Potency Assay Development	Protein Analytical Chemistry
Process Research & Development Business Excellence, Strategy, and Training		Purification Development

To learn more about these areas, please visit: making.gene.com

REQUIREMENTS:

- Junior-level standing or higher and pursuing an undergraduate degree
- Pursuing studies in: science, technology, engineering or mathematics majors
- Demonstrated interest in biotechnology, strong critical thinking, communication, and collaboration skills
- Experience working in research labs or industry is highly desirable

DEADLINE TO APPLY:

TUESDAY, OCTOBER 20, 2020

APPLY AT [GO.GENE.COM/OSA2020](https://go.gene.com/OSA2020)

*Scholarship is contingent on acceptance of internship offer

**Internships may be in-person or virtual due to global pandemic situation at the time of the internship.
