Our Story

Sage Analysis Group is an independent, employee-owned firm which began as an MIT Sloan School of Management spin-off. We help leaders in government and commercial sectors address high-priority strategic issues and have strong differentiated capability in two main areas: rigorous strategic analysis and tailored data science solutions. We have a focus on the defense, security, infrastructure, and health industries.

What We Look For

- Deep analytic & problem-solving capabilities
- Detail-oriented
- Sees the big picture & thinks strategically
- Desire to lead personal career journey & growth
- Strong team-working skills
- Strong writing, communication & interpersonal skills
- Adaptability & openness to change
- Commitment to excellence

Our Team

Our team's data scientists and management consultants are strategic thinkers and subject matter experts in many fields. We bring clients an integrated view that draws on our breadth of analysis skills spanning Strategy, Business Intelligence, Machine Learning, System Dynamics, Artificial Intelligence, Computer Vision, and Natural Language Processing.
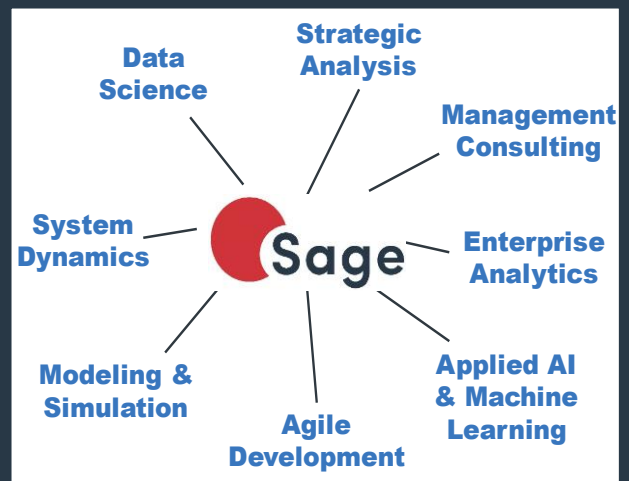

How We Are Different

Strategic + Technical

We provide rigorous detailed analysis – and can draw out strategic points for senior clients. Our people develop and use technical strengths while building their broader skills.

Personal Impact on Big Issues

We help on important strategic issues, so you work on critical challenges early in your career. Everyone in Sage has an impact and you work directly with and learn from our senior team.

Tailored Solutions

We have a wide range of capabilities to draw on, so we tailor our work to best fit needs.
