

The Stanford Cardiovascular Institute

SUMMER RESEARCH PROGRAM

In Cardiovascular and Pulmonary Medicine

Execute an independent research project as a member of a Stanford lab!

PAID 10-WEEK PROGRAM BEGINS IN JUNE 2021

Projects available in population-based, clinical, translational, and basic research.

BENEFITS

- 10 week paid independent research experience
- Experiential learning and research application
- Work under the mentorship of Stanford faculty
- Career development and enrichment activities

ELIGIBILITY

- Must be a US Citizen, Permanent Resident, or holder of one of the following visas: F-1, H1, H1B, J1, PR, TC or TN.
- To qualify for the program, you must be entering at least your second year of an undergraduate degree program in Fall 2021. Individuals graduating from an undergraduate degree program in Spring/Summer 2021 are also eligible.
- No previous research experience is required.

Individuals from groups underrepresented in academia (including but not limited to: racial /ethnic minorities, gender/sexual minorities, first generation college students, disabled individuals, individuals from low income households) are particularly encouraged to apply!

We will be offering a stipend of \$6000 or \$8000 depending on whether the program is virtual or in-person. Housing is not provided.
