

Spring 2022 Wulff Lecture

Friday, April 22, 2022

3:30pm - 4:30pm

Room 10-250

*Reception Immediately Following*

# Bridging brain and machine

---

How does materials science interface with neuroscience?

Can devices behave like nerves?

How can we understand the complexity of the nervous system?

A materials scientist's journey in neuroscience

**Professor Polina Anikeeva**

Professor of Materials Science & Engineering and  
Brain and Cognitive Sciences  
Research Laboratory of Electronics  
McGovern Institute for Brain Research
