

January 1 - April 30 Early Registration
May 1 - July 1 Regular Registration

Major Programs

Theme 1
Genome Dynamics and Gene Regulation

Theme 2
Protein Structure Dynamics and Proteomics

Theme 3
Cell Signaling and Network

Theme 4
Molecular Basis of Diseases

Confirmed Plenary Speakers

Luc Montagnier 2008 Nobel Laureate in Physiology and Medicine UNESCO, France	Aaron J. Ciechanover 2004 Nobel Laureate in Chemistry Technion-Israel Institute of Technology, Israel	Kurt Wüthrich 2002 Nobel Laureate in Chemistry Swiss Federal Institute of Technology Zurich, Switzerland	Sidney Altman 1999 Nobel Laureate in Chemistry Yale University, USA	Shinya Yamanaka Kyoto University, Japan	Robert G. Roeder Rockefeller University, USA
Gregory J. Hannon Cold Spring Harbor Laboratory, HHMI, USA	Victor Ambros University of Massachusetts Medical School, USA	Wolfgang Baumeister Max-Planck-Institute of Biochemistry, Germany	Mathias Uhlén Royal Institute of Technology, Sweden	Gang Pei Tsinghua University, China	Yi-Gong Shi Tsinghua University, China

International Union of Biochemistry
and Molecular Biology (IUBMB)

Federation of Asian and Oceanian
Biochemists and Molecular Biologists
(FAOBMB)

Chinese Society of Biochemistry
and Molecular Biology (CSBMB)

Chinese Society for Cell Biology
(CSCB)

Theme I: Genome Dynamics and Gene Regulation

[illegible]

Theme 2: Protein Structure, Dynamics and Proteomics

Yu-Xiao Jing	H-16 The University of Sussex, Southdown, Sussex, UK
Brian Eversen	University of Aarhus, Denmark
José Maria-Cabaleiro	Instituto Biotecnológico, Chile; Portugal
Michael E. Hirst	University of Cambridge, UK
Wei-Yang	National Institutes of Health, USA
Yue Zhang	The University of Hong Kong, China
Xiao-Zhang Luo	Tsinghua University, China
Johnanne Buchner	Chemie Technische Universität H-17, Germany
Benjamin Orlow	University of California, USA
Ming Luo	University of Alabama at Birmingham, USA
Toni Baudisch	University of Cambridge, UK
R. S. Khandekar	The Institute of Protein Research, India
Fredrick H. Hughson	Princeton University, USA
Ying Chen	Department of Chemistry, Hong Kong
Jenny Martin	University of Queensland Australia
John C. Guckenheimer	University of Rochester, USA
Zhen Chen	University of Illinois, USA
Yue Xiang	University of Northern Carolina at Chapel Hill, USA
Xiao-Georg Ben	University of Tübingen, Germany
Hamed Ghobadipour	University of Illinois at Urbana-Champaign, USA
Yoshihito Osamada	National Institutes of Health, USA
Yue Zhang	University of Hong Kong, China
James Michael Peters	Research Institute of Molecular Pathology/Versna Austria
John Bergeron	PGCIL University, China
Benjamin Orlow	University of California, USA

Theme 3: Cell Signaling and Network

Chuan-Qing He	Guangzhou Institute of Biomedicine and Health, China
Shuang-Hua Peng	Center for Developmental Biology, RIKEN Yokohama, Japan
Sheng-Hong Wu	Department of Cell Biology, University of Science, China
Stephen Wilson	University College London, UK
Shih-Hsin Aizawa	Center for Developmental Biology, RIKEN Yokohama, Japan
Shih-Hsin Chen	Department of Cell Biology, University of Science, China
Do-Hyun Yoo	The University of Texas M.D. Anderson Cancer Center, USA
Shih-Hsin Yoon	Department of Cell Biology, University of Science, China
Todd S. Schreiber	University of Virginia Medical School, USA
A. Ning Zhang	The University of Chicago, USA
Yi Zhang	Department of Cell Biology, University of Medicine Center, USA
Gary J. Goldberg	University of Northern Colorado at Casper Hill, USA
Yi Zhang	Department of Cell Biology, University of Science, China
He-Pan Lin	Yale University, USA
John Heuser	University of California, USA
John Dick	University of Toronto, Canada
Kun-Liang Jiang	University of California San Diego, USA
Danilo G. Klapper	University of California San Diego, USA
Roger Sorensen	Waimanalo Institute of Science, Israel
David S. Kessler	University of California San Diego, USA
Moraine Loh	University of Minnesota, USA
Tomasz Melnick	Karolinska Institute, Sweden
Pragya N. Mehta	University of California San Diego, USA
Paul Insel	University of California at San Diego, USA
Dan M. Miller	University of California San Diego, USA
Peter Deemster	Johns Hopkins University School of Medicine, USA
Tabbara Pappas	Stanford University Medical Center, USA
Pragya N. Mehta	University of California San Diego, USA
Scott Evers	Coriell University, USA
David J. Stiles	University of California, Cell Biology Sciences, USA

Theme 4: Molecular Basis of Diseases
