

## Index to Journal of HSE & Fire Engineering Issue 2 March 2009

<b>Author</b>	<b>Article</b>	<b>Journal</b>	<b>Page No.</b>
Bikarama Prasad Yadav	Construction safety climate in developing country	Journal of HSE & Fire Engineering Issue 2 March 2009	39- 50
Dr. Divyang Shah	Healthy worker effect	„	33-36
Dr. G. Madhu	Environmental management in industries: the changing paradigm	„	18-19
Festin Tomy	Safety critical element identification performance standard and engineering verification for oil and gas installation	„	42-51
Girish Jose	Managing high h2s risk in oil & gas industry	„	9- 17
Narendra Kumar	Pyrophoric iron fire	„	52-57
Panchdev Kumar	Designing for construction worker safety	„	29-35
Paul R. Belliss	Some personal views from a working life in engineering and hse in energy industries	„	20-25
Poulose, Smera Maria	Ocean acidification	„	58-60.
Rakesh Kumar Ratnagar	Water mist system possibilities and feasibility for protection of oil and gas installation	„	26-28
Sreeraj R. Nair	determining the criteria for evaluation of toxic hazards	„	1-8
Vimal Prakash	Clean development mechanism an effective tool to save our planet	„	37-38
