

TALENTE - Outstanding technical objects

International competition to be presented
on the International Trades Fair Munich (IHM), 16 – 22 March 2006

Closing date for applications: 30 November 2005

Call for applications

TALENTE 2005: Torsten Siedel, Germany, presenting his universal pincer

The German trades organisation invites outstanding technicians world wide to present their hand-built objects in an international competition. Candidates need to be under 35 years of age. Teams with scientists or engineers are welcome.

The objects should be outstanding innovations in their field. They will be presented in the exhibition **TALENTE 2006** in Munich/ Germany as a special show on the International Trade Fair for Small and Medium Sized Enterprises (IHM) from 16 – 22 March 2006. In an area of 600 m², the works will be presented to a wide audience, with an international jury selecting the winners of the **TALENTE** prize. A catalogue will appear in print. Shipment of the objects is free.

The competition is funded by both the Federal German and the Bavarian State Governments.
