international
internships
& research

Working closely with a network of premier corporations, universities and research institutes, MISTI matches hundreds of MIT undergrads, graduate students and recent grads annually with all-expenses-paid internships and research abroad. Internships are 3-12 months long. Study abroad opportunities also available.

MISTI programs:
MIT-Brazil
MIT-Chile
MIT-China
MIT-France
MIT-Germany
MIT-India
MIT-Israel
MIT-Italy
MIT-Japan
MIT-Mexico
MIT-Spain
MISTI AITI
MIT-MEET

INTERNSHIP TIMELINE

SEPT - OCTOBER

Apply and interview: Complete the online application form. Then meet with one of our program managers and tell us your goals for an internship abroad. If you meet the program requirements, we'll get started on finding you an all-expenses-paid internship abroad.

OCT - MARCH

Be matched: We forward your application package to companies and labs we think would be a good match for you. If you already have contacts abroad or an internship in mind, let us know!

OCT - MAY

Reach agreement: We help you and your host institution reach an understanding about the details of the proposed internship, including dates, stipend and travel support.

FEB - MAY

Prepare: We work with you and your host to facilitate logistics and make arrangements: visa, internship agreement, housing. You attend MISTI-designed preparatory sessions to help you make the most of your internship.

June

Go! Summer internships begin in June. Fall and spring internships also available

REQUIREMENTS

- For undergrads, most MISTI programs require
 - proficiency in the language of the host country (one to two years of university-level language or the equivalent)
 - good academic standing at MIT
 - completion of country-specific courses and preparation
- Graduate students welcome! Requirements vary.
