

TO: Invited Guests  
FROM: Professor Ronald G. Prinn  
DATE: April 3, 2007  
SUBJECT: Invitation to the Henry W. Kendall Lecture and Reception

The Center for Global Change Science, the Department of Earth, Atmospheric and Planetary Sciences (EAPS), and the Department of Civil and Environmental Engineering (CEE) at the Massachusetts Institute of Technology, cordially invites you to attend the Seventh Annual Henry W. Kendall Memorial Lecture entitled:

**“Uncertainties in Climate Forecasts:  
Causes, Magnitudes and Policy Implications”**

**by Professor Stephen H. Schneider**  
Melvin and Joan Lane Professor for Interdisciplinary Environmental Studies,  
Professor, Department of Biological Sciences  
Co-Director, Center for Environmental Science and Policy in the  
Freeman Spogli Institute for International Studies  
Senior Fellow, Woods Institute for the Environment  
Stanford University

The lecture will be given on Wednesday, April 25, 2007 at 4:30 p.m. in the Faculty Club, Dining Room #5 (Building E52, 6th Floor) at M.I.T. in Cambridge, Massachusetts.

A reception will immediately follow the lecture.

For directions, visit the M.I.T. campus map web site:  
<http://whereis.mit.edu/map-jpg?section=directions>

Henry Kendall was a Nobel Laureate in Physics and an MIT Professor with a deep commitment to understanding and finding solutions to the multiple environmental problems facing the world today and in the future. The permanently endowed Kendall Lecture allows MIT faculty and students to be introduced to forefront areas in global change science by leading researchers.

Best Regards,

Ronald G. Prinn  
TEPCO Professor of Atmospheric Chemistry  
Director, Center for Global Change Science
