

CALL FOR APPLICATIONS

“Post-doctoral Cyprus Institute Fellows at MIT”

The Cyprus Institute (CyI) and the Massachusetts Institute of Technology (MIT) invite applications for Post-doctoral fellowships in the Cyprus Institute Program for Energy Environment and Water Resources (CEEW) at the MIT Laboratory for Energy and the Environment (LFEE) in Cambridge, Massachusetts, USA.

The Program: The LFEE CEEW “Post-doctoral Cyprus Institute Fellows” is a newly established fellowship program for young researchers interested in the fields of energy science and technology, water resources and environmental/climate issues.

The fellowship program is administered by the CEEW, a new research and education program in energy, environment, and water resources established at MIT LFEE through its partnership with the *Cyprus Institute* ; information on the CyI can be found at www.cyprusinstitute.ac.cy. The CEEW program encompasses both technical and policy research, concentrating on issues of relevance to Cyprus and the Eastern Mediterranean region.

Cyprus Institute Fellows will be expected to spend the first year of the Fellowship Period at MIT and the following two years, with the schedule depending on the nature of the Fellow’s research, at the CyI’s Energy, Environment, and Water Research Center (EEWRC) in Cyprus or in collaboration with the EEWRC elsewhere in the region. Up to five post-doctoral fellowships are being offered for the academic year beginning in September 2007.

Eligibility: The Fellowship is intended for researchers from various disciplines, including socio-economic and policy sciences, who want to pursue investigations in the areas of energy, environment, or water resources, and who have an interest in careers in Cyprus or the Eastern Mediterranean.

Interested applicants should apply to CEEW (see contact below) by **31st May 2007** and should submit

- a CV including a list of publications,
- a statement of interest describing possible research to be carried out,
- names of three possible referees who can supply letters of recommendation.

If approved, the initial fellowship award is for three years, and may be renewed based upon progress. The salary will be commensurate with the experience of the successful candidates.
