

DESIGN INTERNSHIP

COMPANY OVERVIEW:

Tencent Boston is a premier game development studio led by industry veterans that are driving the creation of world class online games for a global audience. We are a division of Tencent Inc., one of the largest internet companies in the world. For nearly 500 million people Tencent is the internet offering portal, shopping, community and entertainment services. We are right in the middle of one of the most dynamic and rapidly growing game markets in the world and we are looking for outstanding individuals with passion, talent and a team focused mindset.

INTERNSHIP DESCRIPTION:

The design intern will have a hands-on learning opportunity, working with designers on an existing game project, experiencing the processes of gameplay implementation, polishing, balancing, and tuning. Tencent Boston will provide relevant documentation and intern performance evaluation to aid in achievement of educational credit.

Responsibilities the student may have the chance to be involved in:

- Populating scenes with enemies and environment objects to create exciting and challenging gameplay
- Working with other designers to playtest, analyze and iterate on scenes to identify what is fun and where the levels can be improved
- Incorporating feedback from development team and playtesters to improve the level design

Requirements:

- Familiarity with a 3D engine, preferably Unity
- Strong organization and problem solving skills
- Strong communication skills
- Ability to take and apply direction
- Ability to work well in a team environment
- Familiarity with industry standards for level design

Pluses:

- Previous level design experience
- Familiarity with online, casual and social games
