

**Two Assistant-Rank Faculty Positions – Operations and Supply Chain Management
Department, Monte Ahuja College of Business, Cleveland State University**

The Operations and Supply Chain Management Department (OSM) at the Monte Ahuja College of Business, Cleveland State University, invites applications to fill two tenure-track positions starting Fall of 2020.

The first position at the Assistant Professor level is for recruiting a faculty with high-quality research and teaching to support our university's strategic initiative in Data Analytics:

Responsibilities: The successful candidate is expected to conduct quality research in the relevant domain and teach a variety of Operations and Supply Chain Management courses at the bachelor's, master's and doctoral levels. Such topics include, but are not limited to, data analysis, blockchain, machine learning, predictive analytics, optimization, and supply chain analytics. This position is supported by the university-wide initiative to cultivate the data analytics curriculum. Therefore, the successful candidate is expected to contribute to the growth of data analytics offerings.

Qualifications: Minimum Qualifications: Earned doctorate in Operations Management, Supply Chain Management, Operations Research or related field (ABD candidates considered, but hired as instructors and the doctoral degree must be completed by June 30, 2021); evidence of high-quality research potential; research interests in the disciplines of data science, such as machine learning, high-dimensional data analysis, network analytics and broad data analytics, both theoretically and computationally; ability to teach both undergraduate and graduate business analytics, operations, and supply chain management courses; good oral and written communication skills.

Preferred Qualifications: Active research record, including recent publications; documented excellence in teaching; prior industry experience as a data scientist; the ability to contribute through teaching and/or service to the diversity, cultural sensitivity, and excellence of the academic community.

The second position at the assistant professor level is for recruiting a faculty with high-quality research and teaching interest in the general operations and supply chain management domain. A focused interest in supply and logistics management is a plus.

Responsibilities: Maintain an active and high-quality research agenda. Teach courses in Operations and Supply Chain Management courses at the bachelor's, master's and doctoral levels, and work with doctoral students. Participate in departmental, college, and university service.

Qualifications: Minimum Qualifications: Earned doctorate in Operations, Supply Chain Management or related field (ABD candidates considered, but hired as instructors and the doctoral degree must be completed by June 30, 2021); evidence of high-

Offer of employment is contingent on satisfactory completion of the University's verification of credentials and other information required by law and/or University policies or practices, including but not limited to a criminal background check.

It is the policy of Cleveland State University to provide equal opportunity to all qualified applicants and employees without regard to race, color, religion, sex, sexual orientation, gender identity and/or expression, national origin, age, protected veteran or disabled status, or genetic information.
