### Message from the Guest Editors

Dear Colleagues,

Since the conception of supply chain management (SCM) in the early 1980s, this concept has evolved from a business consultancy product to an area of research and education at business schools worldwide. This Special Issue seeks to enhance how sustainable supply operations are achieved in the context of networked organizations. Network operations encompass here both managerial and the production of services and goods in all sectors of society. We invite papers that are based on conceptual, systematic literature reviews, and empirical research in the form of case studies and surveys. We will accept submissions that use other methodologies for the review process. We are interested in submissions that contribute to developing conceptual frameworks, insightful reviews, and empirical findings on any theme/topic in relation to sustainable supply as a networked and therefore complex phenomenon, an ecosystem.

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer-reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

**Open Access:**—free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High visibility:** indexed by the [Science Citation Index Expanded](#) and [Social Sciences Citation Index](#) (Web of Science), as well as [Scopus](#) and [other databases](#).

**Rapid Publication:** manuscripts are peer-reviewed and a first decision provided to authors approximately 14.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2020).
