

An Introduction to NanoString® Technologies

Multiplexed Digital Quantification of Nucleic Acids *without* Sample Amplification

using the nCounter® Analysis System

Please join us (registration recommended - see below for contact info) for a special seminar about the innovative NanoString nCounter® Analysis System.

Location and Time:

Koch Institute

MIT Building 76-659

Thursday - July 19, 2012

12:00 – 1:00 pm

Lunch will be provided.

12:00 – 12:30 | **An Introduction to the NanoString Technology**

Erroll Rueckert, Ph.D. | NanoString Field Application Scientist

12:30 – 1:00 | **Profiling the Kinetics of Biomaterials Induced Inflammation in Mice**

Omid Veisheh, Ph.D. and Josh Doloff, Ph.D. | Langer/Anderson Labs

Contact Info: Ian Buell - ibuell@nanosttring.com

For more information please call or e-mail Ian Buell at
