## A unique fellowship for postdocs throughout the world

Dear Prof. Reif

Thanks to a donation by the late Branco Weiss, ETH Zürich has the privilege to offer generous grants to postdocs who are pursuing unusual projects on the frontiers between society and science.

Society in Science – The Branco Weiss Fellowship is a personal grant which enables young researchers to carry out their research anywhere in the world, at any institution, for up to five years. I would much appreciate it if you could bring this opportunity to the attention of potential candidates within your institution. We will also send posters to your university's career services center announcing the current call for applications with a deadline of February 1, 2013, for your perusal.

If you have further questions please do not hesitate to contact the communications team for Society in Science at [info@science-communications.ch](mailto:info@science-communications.ch).

Kind regards

*R. Eichler*

Prof. Dr. Ralph Eichler
