

CABOT CORPORATION – GRADUATE STUDENT POSTER DAY

Tuesday May 14, 2013: 8 AM – 2 PM

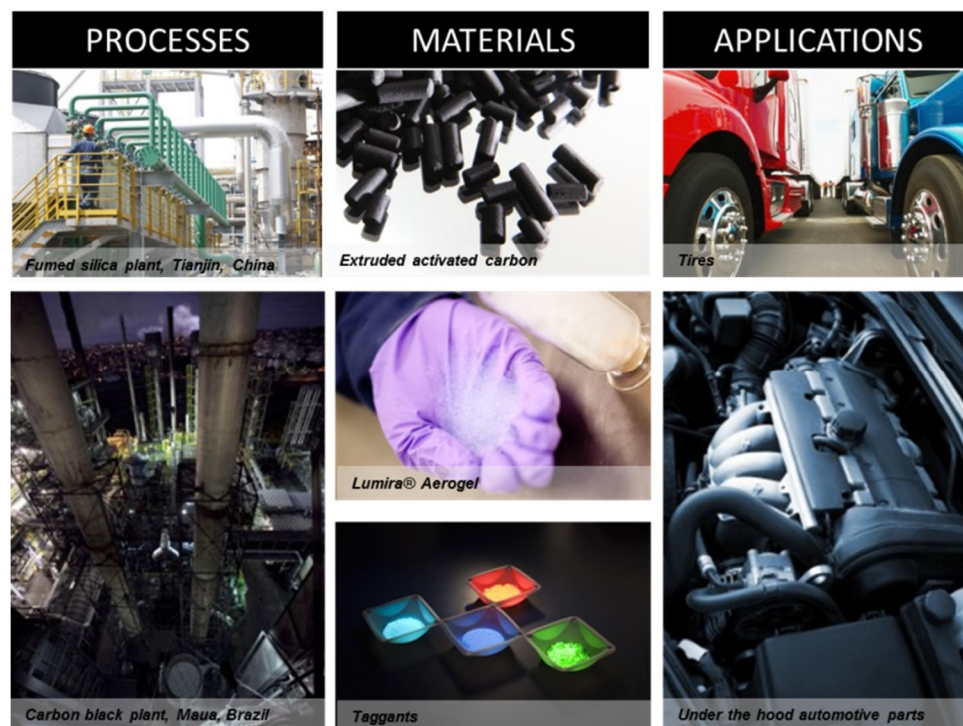

LEARN: *About Cabot Corporation*

SHARE: *Present a poster and discuss your research with Cabot scientists and engineers*

NETWORK: *Make a connection with a Boston-area materials company*

On Tuesday May 14th, 2013 Cabot is planning its annual Cabot Graduate Student Poster Day. This event is targeted at Chemistry, Physics, Materials Science, Chemical Engineering, and Mechanical Engineering graduate students in their 3rd year or later of study and will consist of a welcome presentation, a poster session focused on students' research, and site tour of our Technical Center in Billerica, MA (about a 30 minute drive from Boston). You will have a chance to interact with scientists and engineers at Cabot and learn more about what Cabot does and what it has to offer. It is also an opportunity for Cabot to learn more about the research you are doing. Transportation to and from Billerica, MA will be provided for students in the Boston area who are selected for this event. Lunch and breakfast will also be served.

If you are interested in participating, please send an electronic copy of a poster abstract for review to Daniele.Arnold@cabotcorp.com by April 15th, 2013. Note that for this event it is acceptable to use a poster that has been presented elsewhere.

Cabot Corporation is a global Performance Materials company headquartered in Boston, MA. Cabot's primary Research and Development center is located in Billerica, MA. Our products include carbon black, fumed metal oxide particles, inkjet colorants, security materials, activated carbon, and graphenes. Uses and applications are rich and diverse; they include tires, batteries, inkjet dispersions, and adhesives, among others. For more information see www.cabot-corp.com
