

Regeneron's Postdoctoral Training Program

Now in its second year, the Regeneron Postdoctoral Program offers:

- Three years of formal postdoctoral training in a program directed by an award winning educator.
- Exposure to the biotechnology industry's most successful and innovative scientists.
- Weekly postdoctoral scientist meetings to foster scientific rigor, creative thinking, critical reasoning, and career advancement.
- A prestigious, well resourced, and highly driven industry environment.
- Encouragement of scholarly productivity such as publications and conference presentations.
- Opportunities to pursue your own cutting edge research ideas in almost any area of biomedicine, including human genetics.
