

# SACNAS

40 Years of Advancing Hispanics/Chicanos  
& Native Americans in Science

## Science Students and Faculty Committed to Diversity

The Society for Advancement of Hispanics/Chicanos and Native Americans in Science (SACNAS) is hosting a Boston area regional meeting. All are welcome to network, meet other minority scientists, and find out about Boston area graduate programs and other opportunities. If you are an undergraduate or graduate student or post doc, come and present a poster or talk. **Please contact your campus representative if you want to participate.**

If any trainee wishes to present a poster, please be assured that there will be an opportunity to do so. If you plan to present please send a one page document: including

Title; Authors; Institution(s); Abstract (250 words or less); Funding sources & acknowledgements.

Any post-doc or graduate student who would like to make an oral presentation should send a similar document. Time will be limited so there is no guarantee that all offers to present can be accommodated.

Send to: [Henry.Wortis@tufts.edu](mailto:Henry.Wortis@tufts.edu)

**March 28th, 2015**

## Keynote Speaker

Dr. Lydia Villa-Kormanoff, a molecular cellular biologist and SACNAS co-founder. She's the third Mexican American woman in the United States to receive a doctorate in the sciences. She's also instrumental in leading a team that discovered how bacterial cells could be used to generate insulin. She is now a board member and former CEO and CSO of Cytonome, a company developing and manufacturing purpose-built cell sorters.
