Come learn about Technical Consulting and mingle with our consultants! Solve detective-like problems using your engineering and scientific training. Develop your social and business skills while working with clients ranging from attorneys to executives to technical staff. Work alongside hundreds of bright, like-minded engineers and scientists from around the world. Help answer a wide variety of engineering and science problems that vary day-by-day and cross over a multitude of disciplines. These are only a few of the everyday experiences you will encounter as a Technical Consultant at Exponent. Learn more about how your background can fit into this exciting world. Examples of engineering failure analysis and proactive engineering projects will be discussed. Dinner will be provided!
