

Are You a Graduate Student or Post-doc Interested in Using Your Scientific/Technical Background Beyond the Bench?

Morrison & Foerster is an international law firm with one of the strongest Patent & IP groups in the nation. We represent a wide array of life sciences and technology clients in such areas as recombinant DNA/genetic engineering, monoclonal antibodies, agricultural technology, medical technology, chemical technology, pharmaceuticals, materials science, biomedical and mechanical engineering, medical devices, nanotechnology, bioinformatics, inorganic and organic chemistry, electronics, software, and telecommunications. We work with scientific and technological innovators who are on the cutting edge of tomorrow's discoveries.

We are actively hiring grad students and post-docs for multiple scientific and technical analyst intern positions, as well as full-time patent analyst positions, across our offices.

Science & Technology in a Law Firm: Careers in Patent Law

April 3 | Whitehead Auditorium – 455 Main Street

Presentation 4:00 - 5:00 pm | Networking Hour 5:00 - 6:00 pm

Session Presenters:

Dr. James Mullen, III is a Partner in the San Diego office of Morrison & Foerster. Dr. Mullen counsels clients pursuing inventions in a variety of biotechnology-related areas, including cleantech, cancer therapeutics and diagnostics, infectious disease therapeutics, small molecule screening protocols, and those seeking protection for novel nucleic acid and amino acid sequence protection. He is also the founder and head of the firm's Antibody Patent Group and leads the San Diego office Patent Group. Prior to graduate school and law school, Dr. Mullen worked in various laboratories at Hybritech, Inc., a pioneer in the development of monoclonal antibodies, and at the Research Institute of Scripps Clinic. Dr. Mullen received his B.A. from UC San Diego, his Ph.D. from University of Texas, Houston, and his J.D. from UC Hastings.

Dr. Jillian Pesin-Fulop is an Associate in the San Francisco office of Morrison & Foerster. Dr. Pesin-Fulop's practice focuses on patent preparation and prosecution, patent portfolio management, and patent due diligence for life science companies and universities in the fields of biotechnology, pharmaceuticals, immunology, cancer therapeutics, diagnostics, biofuels, and agricultural biotechnology. She also assists clients in technology transaction matters, including licenses and collaborations for development and commercialization relating to a wide array of life science technologies. Dr. Pesin-Fulop received her B.A. from Williams College, her Ph.D. from MIT, and her J.D. from UC Berkeley.

Dr. Amanda Casale is a Patent Agent in the San Diego office of Morrison & Foerster. Dr. Casale's practice focuses on the prosecution of the U.S. and international patent applications in the areas of molecular biology, immunology, chemistry, neuroscience, and machine learning. She also has experience in conducting IP due diligence, including freedom to operate and patentability analyses. Dr. Casale received her B.A. and B.S. from University of Arizona and her M.S. and Ph.D. from Yale.
