

Frontier Forum

Where visionary minds chart the next wave of innovation.

What is it—

Frontier Forum is an event series by Engine Ventures that brings together leading expert voices in tough tech, rising innovators from our Fellows program, and community members eager to explore how boundary-pushing ideas transform into real-world impact. Forums are comprised of high-value presentations and facilitated open discussions about whitespace in tough tech.

Who should come—

Any graduate student, postdoc and MBA with an interest in translating breakthrough science into real world impact.
