- INFO:**

The Pediatric HIV/AIDS Treatment Support Program-under the AIDS Orphan Salvation Association of Anhui, China- provides treatment, care and support to HIV+ children, many of whom have lost one or both parents to AIDS. The program received generous support from DC-based Medical Care Development International to carry out the program for the first 12 months; however, additional HIV+ children in need of assistance have been identified and continued financial support is required to sustain and expand the program from June 1, 2008 onward.

Please join us for light refreshments from 7:00-7:30pm, followed by a viewing of the Oscar award winning short-documentary (39 minutes), "The Blood of Yingzhou District," which features several of the kids in the program. A brief overview of AIDS in China will be provided, and the effectiveness and importance of the program will be discussed. (If you wear glasses, be sure to bring them so you can read the sub-titles and see the photos clearly).
