The screenshot shows the ABAP Debugger interface. At the top, the title bar reads "(1) - ABAP Debugger controleert sessie 1 (Exclusief)". Below the title bar, there are icons for navigation and a "Watchpoint" button. The main area is divided into several sections:

- Navigation:** Includes fields for "RSWF_CNT_LOAD_XML" and "EVENT", and buttons for "SY-SUBRC" (0) and "SY-TABIX" (1).
- Desktops:** A row of tabs labeled "Desktop 1", "Desktop 2", "Desktop 3", "Stand.", "Structuren", "Tabellen", "Obj.", "Detailschermen", and "Data Explorer".
- Source Code Window:** Titled "ABAP-broncodeweergave", it displays the following code:

```
