

Our mission is to gauge and assess the vast range of situations facing individuals in the undergraduate community due to COVID-19. We strive to use those insights to identify concerns and create a process whereby students are brought into discussions that go into shaping the decision making process at MIT. By way of policy reports that advocate for students to the administration, we strive to ensure that undergraduates have a voice in MIT's COVID-19 response.

We do this through community outreach subcommittees focused on [FSILGs](#), [Dorms](#), [Internationals](#), [Student Associations](#), and [Special Situations](#) (2021s, 2024s, off-campus residents, and those currently in emergency housing). We also have topic sector subcommittees on [Academics](#), [Student Support](#), and [Implementation Policy](#). Lastly, we have Directors on [Communications](#), [Long Term Strategy](#), and [Policy Reports](#).

Throughout our subcommittees, we strive to empower students to take action on the issues that concern them most by helping craft actionable recommendations and advising on the best way to engage MIT administration, faculty, and staff. Our roles are not just to engage students, but to support initiatives from the student body and facilitate the implementation of recommendations.

FSILG Outreach Subcommittee

The FSILG Subcommittee works to identify concerns and represent students that are members of Fraternities, Sororities and Independent Living Groups. They work closely with IFC, Panhel and LGC to ensure students in FSILGs are represented in the recommendations given to MIT.

Contact: ua-covid19-fsilg@mit.edu

Dorm Life Outreach Subcommittee

The Dorm Subcommittee works to identify concerns and represent students living in dorms across MIT. They work closely with DormCon and the Division for Student Life.

Contact: ua-covid19-dorms@mit.edu

Internationals Outreach Subcommittee

The Internationals Subcommittee works to identify concerns and represent international students across MIT. They work closely with the ISO and various student groups.

Contact: ua-covid19-int@mit.edu

Student Associations Subcommittee

The Student Associations Subcommittee works to identify concerns and represent various groups across MIT, including but not limited to: athletics, multicultural groups, identity-based groups, performance clubs, pre-professional groups, and Edgerton Center groups.

Contact: ua-covid19-studentassoc@mit.edu

Special Situations Subcommittee

The Special Situations Subcommittee works to identify concerns and represent 2021s, 2024s, students currently in emergency housing and students living off campus across MIT. They work closely with the Office of the First Year, the Division for Student Life, and other MIT offices.

Contact: ua-covid19-specialcomteam@mit.edu

Academics Subcommittee

The Academics Subcommittee works to support and represent students when it comes to academic policy (including but not limited to grading policy and class regulations). They work closely with faculty and all departments across the institute.

Contact: ua-covid-academic@mit.edu

Student Support Subcommittee

The Student Support Subcommittee works to support and represent students when it comes to mental health and other community related considerations. They work closely with the MIT Medical, S3, VPR, and other offices at MIT.

Contact: ua-covid19-student-support@mit.edu

Implementation Policy Subcommittee

The Implementation Policy Subcommittee works to support and represent students when it comes to the way MIT implements policies over the coming academic year, with a special consideration on social distancing and public health guidelines, data privacy, and compliance measures. They work closely with a broad range of offices at MIT.

Contact: ua-covid19-implementation@mit.edu

Communications

The Communications team is in charge of broadcasting the progress and ongoing work of the Committee to the student body effectively through social media, maintenance of a centralized website, and more as up to the discretion and initiative of the subcommittee. Ensuring transparency in our processes and our dialogue with administration, faculty, staff, and student communities is the team's priority.

Contact: ua-covid19-communications@mit.edu

Long Term Strategy

The Director on Long Term Strategy is charged with conducting thorough research on making change at MIT, including but not limited to research into other institutions and MIT structures. They work to support the implementation of ideas as it pertains to long term and institutional vision and policy. They work closely with administration, faculty, staff and student groups to determine high level long term strategy for the Institute.

Contact: blairaw@mit.edu

Policy Reports

The Director on Policy Reports is entrusted with and responsible for leading the formation of mini-reports and culminating reports in conjunction with Principal Leads and subcommittees. They oversee all reports that come out of the Committee.
